XSIO Industrial Parks Private Limited ('XIPPL' or 'the Company' or 'the Client') intends to issue OCDs to certain investors.

In this regard, the Client has appointed Rashmi Shah FCA, Registered Valuer (Securities or Financial Assets) with IBBI Registration No. IBBI/RV/06/2018/10240 ('RVS') ('RVS' or 'We') to report on the fair valuation of Optionally Convertible Debentures of the Company as required under section 42 read with Rule 14 of Companies (Prospectus & Allotment of Securities) Rules, 2014 and Section 62(1)(c) read with Rule 13 of the Companies (Share Capital and Debentures) Rules, 2014 of Companies Act, 2013 ('Valuation Purpose').

The Valuation Date is 31st October 2025 ('Valuation Date').

Basis and Premise of Value

For the purpose of arriving at the said valuation, we have considered the valuation base as "Fair Value". Our valuation and this report are based on the premise of 'Going Concern". Any change in the valuation base or premise could have a significant impact on our valuation exercise and therefore, this valuation report. For this specific purpose, we have adopted the format prescribed under the Rules.

Disclosure of Valuer Interest

We have no present or prospective contemplated financial interest in the Company, and We have no personal interest with respect to the Promoters & Board of Directors of the Company. We have no bias/prejudice with respect to any matter that is the subject of the valuation report or to the parties involved with this engagement.

Procedures Adopted and Valuation methods followed

We have adopted the following procedures for carrying out the valuations:

- Requested and received financial and other information for undertaking the valuation from the Management;
- Discussions with the Management to understand the business and key value drivers of the company as appropriate and applicable;
- Considered publicly available market data that may impact the valuation;
- Selection of valuation methodology /(ies) as considered appropriate by us, in accordance with ICAI Valuation Standards 2018;
- Understanding and discussion of terms of OCDs under redemption and conversion option
- Arriving at the final value of each OCDs

Valuation Conclusion and Analysis

Our valuation analysis is based on information as provided to us by the Management of XSIO Industrial Parks Private Limited (the "Management") as on the Valuation Date.

We have considered the various internationally accepted valuation approaches and methodologies to determine the value of OCDs of the Company. Within the various valuation approaches and methodologies, we have considered the Replacement Cost method under the Cost Approach, which is an internationally accepted pricing methodology for valuation of the said instruments on an arm's-length basis. In this regard, please refer to the section titled "Valuation Methodologies" for discussion on some of the possible methods which could be used for the said Valuation Purpose, and the reasons based on which we believe that DCF method was appropriate for the stated purpose.

Considering the nature of the instrument, we understand that the OCDs can be redeemed as well as converted. We have considered the underlying implications of both conversion as well as redemption at a qualitative level. As per our understanding of the terms of the said OCDs, we recommend value per OCD to be **INR 10.00/- per OCD**. Our value recommendation is based on the fact that OCDs are convertible at the fair market value of equity shares, which implies that there is no upside or downside to the OCD-holder. This implies that there is no loss or profit to the OCD-holder and thus face value of the OCD can be said to be a reasonable indicator of its fair value. The benefits to the OCD holder nullify any downside risk. Additionally, under the Replacement Cost method under the Cost Approach, the value of an instrument can be the value at which a similar instrument would be issued. Thus, we recommend face value of **INR 10.00/-** to be the fair value of the said OCDs or the fair value per OCD is INR 10.00/- as of the said Valuation Date and for the said Valuation Purpose.

Valuation Methodologies

There are various internationally accepted pricing methodologies which can be applied to arrive at the valuation based on the specifics of the case. These include:

Aspect	Income Approach	Market Approach	Cost / Asset Approach
Valuation principle applied	Discounts future cash flows to the present date	Values of companies operating in the same industry are correlated	A prudent investor will pay no more for a business than the amount for which he could replace / re-create it
Relevant parameters	Discounted cash flows (DCF)	Comparable companies Comparable transactions Market price	Replacement cost Net asset value Realisable value
Appropriate situations in which the method may be applied	DCF is commonly used to value businesses or equity interests. It is appropriate for use when the wealth generating capacity of the business is determinable, going concern assumption is valid and when forecasts are available.	Market approach is used when forecasts are not available, a set of suitable comparable companies is available and going concern assumption is valid.	The Cost approach is used when going concern assumption is doubtful and liquidation is predominant or if the company is newly incorporated.

We have used the Replacement Cost method under the Cost Approach considering unavailability (or inapplicability) of relevant data considering uncertainty or inaccuracy in projecting data.

Limiting Conditions

- Provision of valuation opinions and consideration of the issues described herein are areas of our regular valuation practice. The services do not represent accounting, assurance, accounting / tax due diligence, consulting or tax related services that may otherwise be provided by us or our affiliates.
- The valuation report was prepared for the purpose of complying with specified Regulations and is for the confidential use of the Client only. Its suitability and applicability of any other use has not been checked by us. It may be mentioned that the management has been provided with an opportunity to review factual information in our report as part of our standard practice to ensure that factual inaccuracies/omissions/etc. are avoided in our final signed report.

Annexure I – Terms of OCDs

SCHEDULE II

1. Face Value

Each OCDs shall have a face value of Rs. 10 (Rupees ten only).

2. Nature

The OCDs shall be unlisted, unsecured, optionally convertible debentures and redeemable in the manner set out herein.

3. Term

Each OCD shall have a tenure of 20 (twenty) years.

4. Security

The OCDs shall be unsecured.

5. Conversion

The OCDs shall convert, at the fair value of Equity Shares of the Company (as on the date of conversion) as may be determined by the Board. No fractional Equity Shares shall be issued upon the conversion of any OCD and the number of Equity Shares to be issued shall be rounded to the next highest or lowest whole share, as may be determined by the Board.

6. Redemption

All or part of the OCDs may be redeemed at any time by the Board, at face value or such other price as may be determined by the Board.

7. Coupon

The Company and the OCD holder shall mutually agree on the coupon payable (if any) on the OCDs for each financial year.

8. Maturity

In the event that, for any reason whatsoever, the conversion or redemption of the OCDs does not occur in accordance with the terms herein within 19 (nineteen) years 11 months from the date of their issue, then within 30 (thirty) days from such date, the OCDs shall be redeemed at face value or such other price as may be determined by the Board.

9. Governing Law

The OCDs shall be governed by the laws of India.

10. Transfer

The OCDs shall not be transferred unless in accordance with the manner set out in the Articles and the Shareholders' Agreement.
