Re: Full valuation of equity shares of Coastal Outdoor Products Limited

Dear Sir/Madam,

In accordance with instructions of NYPP and its F.P. holding OAG P.O. Box 100, the "Board" of the "Company" Coastal Outdoor Products Limited ("COP") have performed the work as set out in Engagement Agreement dated 02 July 2021 ("Engagement Agreement"). We are pleased to provide the following report ("Report") in connection with the full valuation of equity shares of Coastal Outdoor Products Limited ("COP") or the "Company") as at 25 July 2021 ("Valuation Date").

It may be of interest to you and the recipient, we have noted that information relating to the preparation of the report was provided by the "Company" ("Management"). We have been given no indication that the information provided is incorrect and complete and that the Management has not provided any other information at the time.

Purpose of our Report and restrictions on its use

We understand that the report was prepared for the purpose of the "Company" ("Management") in connection with the proposed transaction ("Proposed Transaction") in connection with the proposed transaction. This report is not intended to be used for any other purpose and is not intended to be used for any other purpose.

- 1. The report is prepared in accordance with the terms of the "Company" ("Management") and is not intended to be used for any other purpose.
- 2. The report is prepared in accordance with the terms of the "Company" ("Management") and is not intended to be used for any other purpose.
- 3. The report is prepared in accordance with the terms of the "Company" ("Management") and is not intended to be used for any other purpose.

The work was completed and the report was prepared in accordance with the terms of the "Company" ("Management").

The Report was prepared solely for the purpose of the "Company" ("Management") and is not intended to be used for any other purpose. The Report is not intended to be used for any other purpose and is not intended to be used for any other purpose.

We accept no responsibility or liability for any errors or omissions in the Report or for any other purpose. We accept no responsibility or liability for any errors or omissions in the Report or for any other purpose.

Sources of Information

1. The following sources of information were used during the preparation of this report:
 - a. Company specific information: The following information, as provided by the management, was reviewed and used in the report:
 - i. Audited financial statements (balance sheets and profit and loss account) dated 31st March 2020 and 31st March 2021, including auditor's report and management's report of the Company for FY 2020-21 and FY 21-22.
 - ii. Audited financial statements (balance sheet and profit and loss account) prepared as per the provisions of the Companies Act, 2013 for the period ended 31st May 2022.
 - iii. Details of shareholding of the Company (including any non-voting shares).
 - iv. Corporate governance and other reports, including annual reports, and other reports relating to the Company's business, as required by the Companies Act, 2013.
 - v. Other information regarding the Company provided through emails or meeting discussions.
 - b. Industry and market information: IY has made or publicly available information, proprietary information disclosed to IY or its members, and information with the management for preparing the report and the conclusion.
 - c. IY has also conducted extensive interviews and discussions with the management as per considerations for the purpose of the report.
 - d. Details of the other public and private information provided by the management which may not have been included in the documents provided for the purpose of the report.
 - e. It may be mentioned that the report has been prepared on the basis of the information as provided by the management and it is not intended to be a substitute for the actual financial statements of the Company.

Valuation results / conclusion

[illegible]

- **Discounted Cash Flow (DCF)** is the most widely used valuation technique. DCF is based on the principle that the value of an asset is the present value of its future cash flows.
- It is based on the **FCF (Free Cash Flow)** of a company, which is the cash generated by the company after paying for taxes and capital expenditures. The value of the company is then calculated by discounting these cash flows back to their present value.
- Market Value is defined as **FCF (Free Cash Flow)** multiplied by the **Discount Factor**, which is the present value of \$1 received one year in the future. The discount factor is calculated as $\frac{1}{(1 + r)^t}$, where r is the discount rate and t is the time period.
- **FCF (Free Cash Flow)** is the cash generated by the company after paying for taxes and capital expenditures. It is calculated as $\text{EBITDA} - \text{Capital Expenditures} - \text{Change in Working Capital}$.
- **Discount Factor** is the present value of \$1 received one year in the future. It is calculated as $\frac{1}{(1 + r)^t}$, where r is the discount rate and t is the time period.
- **Market Value** is the value of the company calculated using the DCF method. It is calculated as $\text{FCF} \times \text{Discount Factor}$.
- **FCF (Free Cash Flow)** is the cash generated by the company after paying for taxes and capital expenditures. It is calculated as $\text{EBITDA} - \text{Capital Expenditures} - \text{Change in Working Capital}$.
- **Discount Factor** is the present value of \$1 received one year in the future. It is calculated as $\frac{1}{(1 + r)^t}$, where r is the discount rate and t is the time period.
- **Market Value** is the value of the company calculated using the DCF method. It is calculated as $\text{FCF} \times \text{Discount Factor}$.

Valuation results / conclusion

Valuation summary

- Equity value of the Company based on the approach as at 31 July 2023 is shown in the table below. The value is based on assumptions made in the Company for the period ended 31 July 2023. A detailed discussion on the approach and the assumptions of the valuation is given in Section 5. Valuation Analysis.

Component	Value
Estimated value based on business performance (NPV)	12,833.3
Adjustment for non-recurring items	-
Minority interest value	1,075.00
Minority interest value	52.00

Statement of limiting condition

Statement of limiting condition

Statement of limiting conditions

1. **Accuracy of evidence received and assessment of the issues described therein are based on the evidence collected available. The Directors do not (expressly) warrant, represent, assume, disclaim, or give any opinion, as to the accuracy, completeness, or the extent of the evidence received or the extent of the issues described therein.**
2. The fact that this report has been prepared does not imply that the evidence collected is true and correct, or that the evidence is complete, or that the evidence is reliable, or that the evidence is sufficient to support the conclusions reached in the report. The report has been prepared on the basis of the evidence collected, and the evidence collected is not intended to be a statement of fact, or a statement of opinion, or a statement of conclusion, or a statement of recommendation, or a statement of advice, or a statement of any other kind.
3. This report has been prepared for the purposes stated herein and should not be used for any other purpose. The use of this report for any other purpose is at the user's risk and is not intended to be a statement of fact, or a statement of opinion, or a statement of conclusion, or a statement of recommendation, or a statement of advice, or a statement of any other kind.
4. While our work has involved an analysis of the evidence collected, we do not warrant, represent, assume, disclaim, or give any opinion, as to the accuracy, completeness, or the extent of the evidence collected, or the extent of the issues described therein, or the extent of the conclusions reached in the report, or the extent of the recommendations made in the report, or the extent of the advice given in the report.
5. The evidence has been collected on the basis of the evidence collected, and the evidence collected is not intended to be a statement of fact, or a statement of opinion, or a statement of conclusion, or a statement of recommendation, or a statement of advice, or a statement of any other kind.
6. We warrant, represent, assume, disclaim, or give any opinion, as to the accuracy, completeness, or the extent of the evidence collected, or the extent of the issues described therein, or the extent of the conclusions reached in the report, or the extent of the recommendations made in the report, or the extent of the advice given in the report, only if the evidence collected is true and correct, and the evidence is complete, and the evidence is reliable, and the evidence is sufficient to support the conclusions reached in the report.
7. The Directors and the Management do not warrant, represent, assume, disclaim, or give any opinion, as to the accuracy, completeness, or the extent of the evidence collected, or the extent of the issues described therein, or the extent of the conclusions reached in the report, or the extent of the recommendations made in the report, or the extent of the advice given in the report, only if the evidence collected is true and correct, and the evidence is complete, and the evidence is reliable, and the evidence is sufficient to support the conclusions reached in the report.
8. If it is found that the evidence collected is not true and correct, or that the evidence is not complete, or that the evidence is not reliable, or that the evidence is not sufficient to support the conclusions reached in the report, or that the evidence collected is not intended to be a statement of fact, or a statement of opinion, or a statement of conclusion, or a statement of recommendation, or a statement of advice, or a statement of any other kind, then the Directors and the Management do not warrant, represent, assume, disclaim, or give any opinion, as to the accuracy, completeness, or the extent of the evidence collected, or the extent of the issues described therein, or the extent of the conclusions reached in the report, or the extent of the recommendations made in the report, or the extent of the advice given in the report.
9. We do not warrant, represent, assume, disclaim, or give any opinion, as to the accuracy, completeness, or the extent of the evidence collected, or the extent of the issues described therein, or the extent of the conclusions reached in the report, or the extent of the recommendations made in the report, or the extent of the advice given in the report, only if the evidence collected is true and correct, and the evidence is complete, and the evidence is reliable, and the evidence is sufficient to support the conclusions reached in the report.
10. This report is not intended to be a statement of fact, or a statement of opinion, or a statement of conclusion, or a statement of recommendation, or a statement of advice, or a statement of any other kind.

Valuation methods used/ not used

- To determine market value of the assets, three transaction approaches can be considered namely Income, Market and Cost Approaches. Fair value of the asset that would be received **for** will be least or greater than the proceeds of an orderly liquidation received from the participants of the liquidation sale.
- The following methods have been evaluated for determination of fair valuation of the Company as at the Valuation Date.

Methodology	Used/Not	Remarks
Income Approach: (Discounted Cash Flow Method)	Yes	1. DCF method is used to value the Company as at the Valuation Date. 2. DCF method is used to value the Company as at the Valuation Date.
Market Approach: Comparable Company Multiple Method, EV/EBITDA and Comparable Transactions Multiple Method ("CM")	No	1. Market approach is generally the most reliable method for valuing a company. 2. Market approach is generally the most reliable method for valuing a company.
Cost Approach: Net Asset Value Method	No	1. Cost approach is generally the least reliable of the three methods used for valuing a company. 2. Cost approach is generally the least reliable of the three methods used for valuing a company.

Discounted cash flows method

Generalised approach

- The DCF method is often applied with the CF approach but does not require the estimation of the economic value of the company
- The economic value can be found because present value of 4 years 2012 to 2017 Government 2018
- By not capital price for calculation of value (includes cash flows included) "the profitability effect"

Discount rate

- The discount rate of the project represents the opportunity cost of capital (the discount rate at which future cash flows are discounted to their present value at the current time)
- For estimation of discount rate, the Weighted Average Cost of Capital (WACC) is used as a proxy of required minimum (risk premium) which is a synthesis of the value (risk) premium of the Company. To calculate the discount rate, first of which is cost of debt and the capital structure is required. **Weighted average cost of the cost of capital** is calculated for the value of the cost of equity. The value of the capital structure (WACC) is used.
- And it is calculated as the sum of the cost of debt and the cost of equity

Advantages of the DCF method

- DCF approach assumes that the cash flows over period (average) of the management period (average) of the cash of the year. Therefore the discount rate is adjusted to value the cash flows of period of the management period

Calculation of WACC

$$WACC = W_d \cdot R_d + W_e \cdot R_e$$

where:

- W_d = Weight of debt (debt capital / total capital, 1/25 = 0.04)
- R_d = Cost of debt
- W_e = Weight of equity (equity capital / total capital, 24/25 = 0.96)
- R_e = Cost of equity

Location of the Subject Property in Bodh Pur Bija Pur, North-west Delhi

Discounted cash flows method

Key assumptions

- The following contains assumptions used in the discounted cash flow (DCF) analysis:
 - ERM cash flow-based valuation for 2020/21 per month, with a discount rate of 5.75 p.a.
 - Insurance and property tax provisions and working capital is assumed at 2021 ERM/ETOP amounts for 2021/22, with provisions of 2020 p.a.
 - Working Provision (WP) and property provision is 1.4% of 2021 ERM/ETOP for the month period for the month to end of the financial period.
 - Depreciation and amortisation ("D&A") rate: 10% p.a. of 10% of the total assets.
 - Asset impairment ("AI") rate: AI rate of 5.75% of the total assets.
 - Breakdown Breakdown rate: 10% of the total assets.
 - Corporate Tax: 10% rate is applied to 2021/22 after applying depreciation and amortisation rates.
- Capitalisation rate: Capitalisation rate of "100.00%" is a measure of the ratio between the 2021 ERM/ETOP (excluding the net D&A) and the net D&A. Capitalisation rate is directly derived by the sum of capital and the gross ERM/ETOP (excluding the net D&A) and the ratio of the net D&A to the sum of capital and the gross ERM/ETOP (excluding the net D&A) is 100.00%.
- NPV is calculated by discounting operating cash flow (excluding the net D&A) from the gross ERM/ETOP. The property value is derived by dividing the 2021 ERM/ETOP (excluding the net D&A) by the capitalisation rate. For a commercial property, the NPV is derived by dividing the 2021 ERM/ETOP (excluding the net D&A) by the capitalisation rate.
- NPV of 2021 ERM/ETOP has been considered for valuing the terminal value of the Subject Property. We have considered a capitalisation rate of 1.00% p.a. based on the fact that the market value of the Subject Property is expected to be stable, and the capitalisation rate of 1.00% p.a. is based on the fact that the market value of the Subject Property is expected to be stable.
- Terminal value is derived by dividing the 2021 ERM/ETOP (excluding the net D&A) by the capitalisation rate of 1.00% p.a.

Net Asset Value Method

4. The table below summarizes the Net Asset Value of DPG, as of 31 July 2009:

Company Ltd. (Company's Assets)		
Balance Sheet as of 31 July 2009		
Company Assets		
Cash and bank balances	12K	
Other net assets	88.8	
	<u>100.8</u>	
Company Liabilities and Reserves		
Trade payables	10K	
Other borrowings	111.8	
	<u>121.8</u>	
Shareholders' Equity (Net Assets)		121.8
Share Capital		
- ordinary shares	100.0	
- preference shares	0.0	
Reserve	21.8	
Net Asset Value	121.8	121.8
Net Asset Value per Share		
Net Asset Value per Share		121.8
Net Capital Employed		121.8
Net Income per Share		1.218
Net Fair Value of DPG		121.8
Less: Cash and bank balances		12K
Less: Other net assets		88.8
Net Asset Value		121.8
Net Asset Value		

- The estimated value of the Company as of the 31 July 2009 is not NAV based is 121.8
- As indicated by the Management, there are 10-year and 15-year bonds issued by the Company and the net assets value is 121.8. The Company is not a public company and the net assets value is not publicly disclosed. The Company is not a public company and the net assets value is not publicly disclosed.
- NAV method is not an appropriate method to value the Company because:
 - As indicated by the Management, the net assets value is 121.8. It is higher than the net assets value that would have been available to construct the net assets value. The net assets value is not publicly disclosed.
 - Further, the Net Asset Value is not a good indicator of the Company's value. The net assets value is not a good indicator of the Company's value.
- Valuation of net NAV is based on the net assets value.
- Valuation of net NAV is based on the net assets value.
