Valuation Report of

Kathur Logistics Park Private Limited
Submitted to

Kathur Logistics Park Private Limited

"The Value Means Different Things To Different People And The Result Will Not Be the Same. Should Control Change?"

The Board of Directors
Kathur Logistics Park Private Limited

Dear Sir,

I am pleased to present the following report "Valuation Report" for the Valuation of Equity Shares of Kathur Logistics Park Private Limited, company registered under Companies Act, 2013 having CIN: U70109KA2018PTC114001 registered office situated at No.208, 1 Floor, West Market, 13 Cunningham Road, Bangalore-560002 which has been carried out as per the scope and terms of the engagement letter dated 05.05.2020.

Scope and Purpose of the Valuation Report and Restrictions on its Use

Kathur Logistics Park Private Limited ("KLPP," or "the Company") is involved in the business of development of industrial parks.

We understand that KLPP, is in the process of allotment of securities. In this context, the Company requires valuation of Equity Shares as at 20th June 2020 ("Valuation Date"). This Valuation Report is prepared solely for this purpose and may not be used or relied upon for any other purpose. This Valuation Report and its content may not be quoted, referred to or shown to any other parties except as provided in the Engagement Letter. This Valuation Report should be read in its entirety, including Assumption and Limiting Conditions, for a full understanding of our conclusion of value.

Our analysis and report are in conformity with the "ICAI Valuation Standards" (IVS) issued by the Institute of Chartered Accountants of India. In addition to the general standards/guidelines of the IVS, our report specifically complies with ICAI Valuation Standard 102- Valuation Basis, ICAI Valuation Standard 103 – Valuation Approaches and Methods, ICAI Valuation Standard 201 – Scope of Work, Analysis and Evaluation, ICAI Valuation Standard 202 – Reporting & Documentation and ICAI Valuation Standard 201- Business Valuation.

Our engagement commenced on 05.05.2020 and was completed on 20.06.2020, the Valuation Report does not take account of events occurring after 20th June 2020. We have no responsibility to update the report for such subsequent events.

Yours faithfully,

CS Shweta Joshi

1. ENGAGEMENT BACKGROUND

1.1 Company Background

Kothur Logistics Park Private Limited (KLPL) or 'The Company') having it's registered office at Cite UPO108KAD218PTC114001 registered office situated at No 308, 1st Floor, West Model, 13 Cunningham Road, Bangalore - 560052. It is involved in the business of development of industrial parks.

1.2 Scope of Valuation Engagement

1.2.1 Purpose of Valuation and Appointing Authority

Based on discussion with the Management we understand that the company is in the process of allotment of securities. In this context, the Management requires our assistance in determining the Fair Value of the Equity Shares of the Company.

I have been appointed by the Board of Directors of Kothur Logistics Park Private Limited as independent valuer to derive the Fair Value of Equity Shares of the Company for the above stated purpose.

1.2.2 Subject Matter of Valuation

The subject matter of valuation is the Equity Shares of the company.

1.2.3 Identity of Valuer and any other experts

Shweta Joshi (the Valuer) is a Practising company secretary, registered with the Institute of Company Secretaries of India, with Membership No. 40754 and also RSI Registered Valuer in the asset class "Securities or Financial Assets". I have the necessary experience of providing services across all vehicles of Debt and Equity.

1.2.4 Disclosure of Valuer's interest and conflict, if any

We acknowledge that we have no present or contemplated financial interest in the Company. Our fees for this valuation are based upon our normal billing rates, and not contingent upon the results or the value of the business or in any other manner. We have no responsibility to modify this report for events and circumstances occurring subsequent to the date of this report.

1.2.5 Date of Appointment and Valuation Date

Particulars	Date
Date of Appointment	05.08.2020
Date of Valuation	20.08.2020

I VALUATION SUMMARY

We have performed a valuation engagement, as that term is defined in the Companies Act 2013 of Equity Shares of Kuthur Logistics Park Private Limited as of 20.06.2020. This valuation was performed solely to determine the fair value of Equity Shares of the Company for the purpose of fresh investment in the company and the resulting Fair value should not be used for any other purpose or by any other party for any purpose. This valuation engagement was conducted in accordance with the Indian Companies Act, 2013. The estimate of value that results from a valuation engagement is expressed as a conclusion of value.

Based on our analysis, as described in this valuation report and based on the discounted cashflow method the fair value of an Equity Share of Kuthur Logistics Park Private Limited as of 20th June 2020 is Rs. 27,282.72/- (Rupees Twenty Seven Thousand Two Hundred and Ninety Three and Seventy Three Paise Only). This conclusion is subject to the Statement of Assumptions and Limiting Conditions found in 'ASSUMPTIONS AND LIMITING CONDITIONS' section of this Valuation Report. We have no obligation to update this report or our conclusion of value for information that comes to our attention after the date of this report.

2 COMPANY'S BUSINESS AND FINANCIAL REVIEW

2.1 Company's Operations

2.1.1 Business Segments

Kuthur Logistics Park Private Limited('KLPPCL' or 'the Company') is involved in the development of industrial parks.

2.1.2 Corporate Strategy, Mission and Vision

The Company aims to create wealth through innovation, passion and joy, making it the most admired, respected and aspired-for brand in industrial parks.

2.2 Operating Environment and Industry Overview

The Company is involved in the business of development of industrial parks.

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. Infrastructure sector includes power, bridges, dams, roads, industrial parks and urban infrastructure development. India was ranked 46th out of 187 countries in World Bank's Logistics Performance Index (LPI) 2018. India is ranked second in the 2018 Agility Emerging Markets Logistics Index.

Foreign Direct Investment (FDI) received in Construction Development sector (townships, housing, built up infrastructure and construction development projects) from April 2000 to

December 2019 stood at US\$ 25.37 billion, according to the Department for Promotion of Industry and Internal Trade (DPIIT). The logistics sector in India is growing at a CAGR of 10-5 per cent annually and is expected to reach US\$ 215 billion in 2025.

3.2 Capital Structure

Kapoor Logistics Park Private Limited ("KLPP," or "the Company") is involved in the business of development of industrial parks.

The Capital Structure of the Company is given under Share Holding Pattern

Sl. No.	Name of the Shareholder	Number of Shares	Percentage of Fully Diluted Share Capital
1.	JCA Infra Projects Limited	8800	99
2.	Krishan Kapur	95	1.05
3.	April Kapur	1	0.01
4.	Ekta Krishan Kapur	1	0.01
5.	Devika Khanna	1	0.01
6.	Shruti Kapur	1	0.01
7.	Om Kapur	1	0.01
	Total	10,000	100%

4 INFORMATION SOURCES

4.1 Sources of Information

The analysis is based on the review of the business plan of the company provided by the Management and information relating to the infrastructure sector as available in the public domain. Specifically, the sources of the information include -

- Discussions with the management
- Audited financials
- Provisional financials
- Business Plan of the Company

In addition to the above, we have also obtained such other information and explanations which were considered relevant for the purpose of the Analysis.

4.2 Valuation Approach

The Valuation exercise was carried out keeping in mind the standard methodologies are influenced by the following factors:

- i. Ease with which the growth rate in cash flows can be achieved.
- ii. Our estimate of the valuation of the Company is based on the DCF Approach.

4.3 Inspections and/or Investigations

The company provided us with the basic information and other necessary information as required for the purpose of valuation. We have inspected the data as provided to us by the management.

5 VALUATION ANALYSIS

5.1 Valuation Procedures

Allocation of the value of an enterprise to the different classes of securities requires an understanding of Equity share holder rights. The rights received by Equity share holders are Equity rights.

The Institute of Chartered Accountants of India (ICAI) has published a "Valuation Standard" in 2018 and has prescribed below approaches for valuation methodologies as per valuation standard 103:-

1. Cost Approach:

Cost approach is a valuation approach that reflects the amount that would be required currently to replace the service capacity of an asset (often referred to as current replacement cost). In certain situations, historical cost of the asset may be considered by the valuer where it has been prescribed by the applicable regulations/law/guidelines or is appropriate considering the nature of the asset.

Replacement Cost Method

Replacement Cost Method, also known as 'Depreciated Replacement Cost Method' involves valuing an asset based on the cost that a market participant shall have to incur to recreate an asset with substantially the same utility (comparable utility) as that of the asset to be valued, adjusted for obsolescence.

Applicability of this method:

Since the Company is already into operations, we have not considered the Replacement Cost method for valuation of its equity shares.

Net Assets Value Method

Net Assets Value Method involves valuing an asset based on the carrying values of the assets and liabilities recorded in the financial statements.

Applicability of this method:

We have not used this method as the company is into service industry and the net assets value of the Company do not indicate fair value of the Company.

Reproduction Cost Method

Reproduction Cost Method involves valuing an asset based on the cost that a market participant shall have to incur to recreate a replica of the asset to be valued, adjusted for obsolescence.

Applicability of this method:

This method is not appropriate as the valuation is being carried out for the shares of the Company.

2. Market Approach:

Comparable Company Market Multiple Method

Under this methodology, market multiples of comparable listed companies are computed and applied to the business being valued in order to arrive at a multiple based valuation. The difficulty here is in selection of a comparable company since it is rare to find two or more companies with the same product portfolio, size, capital structure, business strategy, profitability and accounting practices.

Whereas no publicly listed company provides an identical match to the operations of a given company, important information can be drawn from the way comparable enterprises are valued by the public markets.

Applicability of this method:

We have not used this methodology in the analysis as we understand that there are no comparable in listed companies in the sector.

Comparable Transactions multiple method

This approach is somewhat similar to the market multiples approach except that the sales and the EBITDA multiples reported transactions in the same industry in the recent past is applied to the sales and the EBITDA of the business being valued.

Applicability of this method:

We have not considered this methodology in the analysis as we understand that there are no comparative transaction in the sector to which the company belongs.

1. Income Approach

Sustainable Profit Method (Discounted Cash Flows – “DCF”) –

DCF uses the future free cash flows of the company discounted by the firm's weighted average cost of capital (The average cost of capital used in the business, including debt and equity), plus risk factor measured by Beta, to arrive at the present value.

Beta is an adjustment that uses historic stock market data to measure the volatility of the company's cash flow to market indices, for example through business cycles.

The DCF method is a strong valuation tool, as it concentrates on cash generation potential of a business. This valuation method is based on the capability of a company to generate cash flows in the future. The free cash flows are projected for certain number of years and then discounted at a discount rate that reflects the company's cost of capital and the risk associated with the cash flows it generates. DCF analysis is based mainly on the following elements:

- a. Projection of financial statements
- b. The Weighted Averagecost of capital to discount the projected Cash flows.

a) Free Cash Flows

We have been provided with the free cash flows of the company by the management.

b) Terminal Value

The Terminal Value refers to the present value of business going concern beyond the period of projections up to infinity. This value is estimated by taking into account expected growth rates of the business in the future, sustainable capital investments required for the business as well as estimated growth rate of the industry and economy.

Applicability of this method:

We have used discounted cashflow methodology to determine the fair value of the Equity Shares and 20th June 2022 is fair value per equity share is Rs. 27,283.73/- (Rupees Twenty Seven Thousand Two hundred and Ninety Three and Seventy Three Paise Only).

1.2. Adoption and Application of Indian Valuation Standards

The general process for the valuation starts with the analysis of historical and current financials, then analysis of future projections, if applicable, is done and discussions with the Company is performed to understand the future assumptions. After analyzing the data appropriate valuation method is determined. Valuation is done and valuation report is prepared. Finally, this report is shared with the Company.

The report has been prepared in compliance with Valuation Standards adopted by ICAI Registered Valuation Organisation.

The Standard of Value used in the Analysis is **FAIR VALUE**, which is often defined as the price in terms of cash or cash equivalent, that a buyer could reasonably be expected to pay and a seller could reasonably be expected to accept, if the business were exposed for sale on the open market for a reasonable period of time, with both buyer and seller being in the possession of the pertinent facts and neither being under any compulsion to act.

8.2 Valuation Analysis & Conclusion

Keeping in mind the context and purpose of the report, we have used the Discounted cashflow method. We have used this method to calculate the Fair Value of the Equity and debt of the Company based on the information provided by the Management of the Company.

Based on our analysis, as described in the valuation report, and based on the Discounted Cash Flow Method of valuation, subject to the assumptions presented herein, in our opinion, the estimated value per Equity Share of Rathi Legation Park Private Limited as on 30th June, 2020 can be considered as Rs. 27,293.75 (Rupees Twenty Seven Thousand Two Hundred and Ninety Three and Seventy Three Paise Only). We have no obligation to update the report or our conclusion of value for information that comes to our attention after the date of report.

8 ASSUMPTIONS, LIMITING CONDITIONS, CAVENDISH AND DISCLAIMERS

1. The conclusion of value arrived at herein is valid only for the stated purpose as of the date of the valuation and may not be used out of the context presented herein.
2. Public information, estimates, industry and statistical information contained in this report have been obtained from sources considered to be reliable. However, we independently did not verify such information and make no representation as to the accuracy or completeness of such information obtained from or provided by such sources.
3. The company and its representatives warranted to us that the information supplied to us was complete and accurate to the best of their knowledge and that the financial information properly reflects the business conditions and operating results for the respective periods in accordance with generally accepted accounting principles. Information supplied to us has been accepted as correct without any further verification. We have not audited, reviewed, or compiled the financial information provided to us and, accordingly, we express no audit opinion or any other form of assurance on this information.
4. Financial information of the subject company is included solely to assist in the development of a value conclusion presented in this report and should not be used to obtain credit or for other purposes. Because of the limited purpose of the information presented, it may be incomplete and contain departures from generally accepted accounting principles. We have not audited, reviewed or compiled the information and express no assurance on it.
5. The conclusion of value arrived at herein is based on the assumption that the current level of management expertise and effectiveness would continue to be maintained, and that the character and integrity of the enterprise through any sale, reorganization, exchange, or distribution of the owners' participation would not be materially or significantly changed.
6. Possession of this report, or a copy thereof, does not carry with it the right of publication of all or part of it nor may it be used for any purpose by anyone other than those enumerated in this report without the written consent of CB Sheets Joshi. This report and the conclusion of value arrived at herein are for the exclusive use of our client for the sole and specific purposes as noted herein.
7. The report and conclusion of value are not intended by the author and should not be construed by the reader as investment advice in any manner whatsoever. The conclusion of value represents the considered opinion of CB Sheets Joshi, based on information furnished to them by the client and other sources.
8. Neither all nor any part of the contents of this report (especially the conclusion of value, the identity of any valuation specialist(s), or the firm with which such valuation specialists are connected or any reference to any of their professional designations) should be disseminated to the public through advertising media, public relations, news media, social media, mail, direct transmittal, or any other means of communication without the prior written consent and approval of CB Sheets Joshi.

9. This valuation reflects facts and conditions existing or reasonably foreseeable at the valuation date. Subsequent events have not been considered, and we have no obligation to update our report for such events and conditions.
10. The subject, by reason of this valuation, is not required to give further consultation, testimony, or be in attendance in court with reference to the property in question unless arrangements have been previously made.
11. Our engagement for this valuation consulting work does not include any procedures designed to discover any defraudations or other irregularities, should any exist.
12. CS Shweta Joshi is not an environmental consultant or auditor, and takes no responsibility for any actual or potential environmental liabilities. Any person entitled to rely on this report, wishing to know whether such liabilities exist, or the scope and their effect on the value of the property, is encouraged to obtain a professional environmental assessment. CS Shweta Joshi does not conduct or provide environmental assessments and has not performed one for the subject property.
13. CS Shweta Joshi has not determined independently whether the client is subject to any present or future liability relating to environmental matters nor the scope of any such liabilities. CS Shweta Joshi's valuation takes no such liabilities into account, except as they have been reported to CS Shweta Joshi by the client or by an environmental consultant working for the client.
14. No change of any item in this valuation/consulting report shall be made by anyone other than CS Shweta Joshi and we shall have no responsibility for any such unauthorized change.
15. It is assumed that there is full compliance with all applicable central, state, and local environmental regulations and laws unless noncompliance is stated, defined, and considered in the report.
16. If prospective financial information approved by management has been used in our work, we have not examined or compiled the prospective financial information and therefore, do not express an audit opinion or any other form of assurance on the prospective financial information or the related assumptions.
17. We have conducted interviews with the current management of the client concerning the past, present, and prospective operating results of the company. Except as noted, we have relied on the representations of the owners, management, and other third parties concerning the value and useful condition of all equipment, investments used in the business, and any other assets or liabilities, except as specifically stated to the contrary in this report.
18. We have made no investigation of title to property, and assume that the owner's claim to the property is valid. We have not attempted to confirm whether or not all assets of the business are free and clear of liens and encumbrances or that the entity has good title to all assets.
